PRINCE RAJ

QA Tester Intern | Full Stack Developer

+91 6203135782 | praj01012003@gmail.com | github.com/PrinceRajDev | linkedin.com/in/prince-raj2003

PROFESSIONAL SUMMARY

Computer Science and Engineering student and QA Tester Intern with hands-on experience in manual, functional, regression, and API testing. Builds MERN applications with React, Node.js, Express.js, MongoDB, and MySQL, combining product-minded development with careful validation and clear documentation.

EXPERIENCE

QA Tester Intern | Zealthix Technologies **Sep 2026 - Present**

- Perform manual and functional testing of Java-based backend modules and RESTful APIs; identify and log defects.
- Design test cases from requirement documents for positive, negative, and edge-case scenarios.
- Use Postman for API testing and SQL queries for data validation; collaborate with developers to retest fixes.

Full Stack Development Summer Training | Cipher School **Jul 2024**

- Completed MERN training and built an LMS with authentication, real-time updates, and a content editor.
- Practiced RESTful API design, backend integration, scalable deployment, and performance-aware implementation.

PROJECTS

CareerGuideAI | AI-Powered Career Guidance Platform **Feb 2026**

- Built a MERN career-guidance platform with personalized recommendations and responsive frontend interfaces.
- Integrated the Groq API powered by Llama 3.3 and designed backend APIs for AI-driven career insights.

Tech: MongoDB, Express.js, React.js, Node.js, Groq API

GaonBazaar | Rural E-commerce Platform **Jan 2026**

- Created a MERN marketplace that connects farmers and local vendors directly with buyers.
- Implemented authentication, product listings, responsive interfaces, and secure backend integration.

Tech: MongoDB, Express.js, React.js, Node.js

ChatSphere | Multi-Client Chat Application **Sep 2025**

- Built a concurrent Java chat application using socket programming, multithreading, synchronized threads, and Java I/O streams.

Tech: Java, Multithreading, Socket Programming, OOP

SKILLS

Languages	Java, Python, JavaScript, SQL
Development	React.js, Node.js, Express.js, MongoDB, MySQL, REST APIs
Quality & Tools	Manual Testing, Test Case Design, Bug Tracking, Regression Testing, API Testing with Postman, Git, GitHub, Linux

EDUCATION

Bachelor of Technology in Computer Science and Engineering | Lovely Professional University, Punjab **Aug 2022 - 2026**

CGPA: 7.61 | Coursework: Object-Oriented Programming, Database Management Systems, Web Development

Intermediate (80%) | Ram Krishna College, Madhubani, Bihar **Apr 2019 - Mar 2021**

Matriculation (73.4%) | Harrow English School, Darbhanga, Bihar **Apr 2018 - Mar 2019**

CERTIFICATIONS

Cloud Computing - NPTEL (Nov 2024) | Building Web Application in PHP - Coursera (Nov 2024) | Full Stack Development Using MERN Stack - Cipher School (Jul 2024) | Server Side JavaScript with Node.js - Coursera (May 2024)
